Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/8/06 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10, 11, and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by International Application Publication WO 99/21515 Grooms.

In response to claims 10, 11, and 13-15 Grooms discloses the same invention being an implant shown in figure 2B comprising a blunt proximal end (202), a tapered distal end adapted to receive a suture (201), a transverse eye (210), and a cylindrical shaft (204). Grooms also teaches the use of channels formed on the opposite sides of the implant shown as the channels in figure 7D that may accommodate suture received in the eye of the implant.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 12 is rejected under 35 U.S.C. 103 as being unpatentable over Grooms in view of United States Patent 6,045,554 Grooms et al.

Grooms discloses the invention substantially as claimed being an implant described above. However, Grooms does not disclose that the implant is made of allograft or a synthetic bone material.

Grooms 554' teaches the use of an implant made of allograft or synthetic bone material (2:9-22) in the same field of endeavor for the purpose of providing an implant that is capable of fusing with the bone it is implanted into.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to combine the allograft or synthetic bone materials taught by Grooms 554' with the implant of Grooms in order to provide an implant that has strength comparable to a metallic version, and has the advantage of leaving no residual hardware while contributing to bone stock.

Response to Arguments

Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.
